

## CREATIVE CONSULTANCY +

Trends | Innovation | Identity

In a working method where the boundaries between creativity, communication and activation disappear, KNOL's mission is to give shape to our client's vision and inspire and stimulate innovation. Our studio works for corporate and cultural clients and is able to respond quickly to any creative issue, from organizing workshops to proposing creative solutions. With a vibrant brainstorm, KNOL unites involved parties in an active way and helps them to give shape to their ideas. KNOL can also give creative advice by means of consultations and visual documents (bidbook).
