Interior | Food | Photo and Film

In a world where spaces, objects, colors and graphics fill our surroundings, exquisite compositions can emerge. Studio KNOL is a creative agency that works for corporate and cultural clients. We design and produce interiors, photo and film sets. Whether permanent or temporary, KNOL can transform any location into a unique experience. We work for a selection of brands, advertising agencies and international galleries, such as KLM, Philips, de Bijenkorf and Modefabriek.
